DESCRIZIONE

This LED light block is compatible with Harmony XB4 metallic and Harmony XB5 plastic range. It is used for pushbutton heads of diameter 22mm. The color of the light source is white. Its robustness design LED allows to be used for specific application with overload risk like Marine, Hospital or direct wiring of loads at 230VAC. The source of light is high protection universal LED and the overload capacity is 300VA at 230VAC and 120VA at 110VAC. The connection terminal is screw clamp. The weight of the product is 17 grams. The rated supply voltage is 110 to 240 V AC. The simplicity of installation, flexibility, and robustness makes it suitable for the majority of industrial segments and applications. It complies with the RoHS directive related to the management of electronic and electrical waste. The LED design with overload protection simplify mounting and reduce maintenance operation. It is sold in lots of 5. It can be easily installed to a panel cut out with the help of a cross head screwdriver.
